INDEX
RESEARCH MANAGEMENT
VOLUME XIV, 1971

Anderson, Arthur G.: Maintaining vitality in R&D organizations, July p47

Barth, Richard T.: see Rubenstein, Albert H.

Bissell, Herbert D.: Research and marketing – rivals or partners?, May p65

Bobis, A. H.: A funds allocation method to improve the odds for research successes, Mar p34

Brooks, Harvey: What can technology do about technology?, Mar p12

Bucher, George C.: The principles of motivation and how to apply them, May p12

Budgets, fund allocation, Mar p3, July p58, Nov p27

Bush, Vannevar: Of inventions and inventors, July p27

Busignies, Henri: Electrical communication and civilization, July p14

Carpenter, Richard A.: Information for decisions in environmental policy, Mar p27

Casimir, H.B.G.: Some basic rules for good industry-university relations, Nov p12

China research, Sept p4

Clayton, Ross: A convergent approach to R&D planning and project selection, Sept p68

Collier, Donald W.: How can industrial research meet the changing expectations of corporate management?, May p56

Communications, Nov p49

Communications, electrical, July p14

Cooke, T. F.: see Bobis, A. H.

Cooperative research, Jan p55

Creativity, May p5, July p47, Nov p44, Nov p65

David, Edward E. Jr.: Some questions on the role and effectiveness of technology assessement, Mar p21

Dessauer, John H.: How a large corporation motivates its research and development people, May p51

Douds, Charles F.: see Rubenstein, Albert H.

Education, July p5, Nov p9, Nov p12

Education, continuing, July p47

Efroymson, John S.: see Kassem, Sami M.

Employment, Jan p8, Mar p6, May p7, July p6, July p8, Nov p8

Environmental problems and policy, Mar p27, Sept p5

Europe, R&D in, Jan p47, Jan p55

Faust, Richard E.: Project selection in the pharmaceutical industry, Sept p46

Financial reporting, July p58

Foreign research, Jan p12, Jan p20, Jan p28, Jan p38, Jan p47, Jan p55, Jan p64, Jan p70

Foster, Richard N.: Estimating research payoff by internal rate of return method,Nov p27

Galloway, E. C.: Evaluating R&D performance – keep it simple, Mar p50

Garber, J. D.: see Parmerter, S. M.
Gee, Robert E.: Current project selection practices, Sept p38
Gladstone, Edgar J.: How a systems anlysis group helps R&D management, Nov p71
Glicksman, Maurice: R&D in Japan – a future that will challenge the U.S., Jan p28
Gomersall, Earl R.: Current and future factors affecting the motivation of scientists, engineers and technicians, May p43
Government-industry interaction, July p4, Sept p7
Gray, Richard C.: see Bucher, George C.
Great Britain, R&D in, Jan p38
Haensel, Vladimir: Lucky Proteus or how not to hire a genius, Nov p44
Halsbury Lord: R&D in Britain – a mix of quality, selectivity and cooperation, Jan p38
Hanson, Wesley T.: Multinational R&D in practice – Eastman Kodak Corporation, Jan p47
Incentives for research, May p4, Sept p6
Interaction, research and other departments, Nov p72
Innovation, July p47
International research organizations, Jan p70
Invention and inventors, July p27
Japan, R&D in, Jan p28
Kassem, Sami M.: Russia's changing science and technology policies, July p37
Landau, Edward F.: see Whitman, Eric S.
Landis, Fred: What makes technical men happy and productive?, May p24
Lindsay, Edwin M.: Financial management of R&D – planning and budgeting, project authorization and financial reporting, July p58
Lobb, John: What chief executives expect from the R&D department, May p74
Management, corporate, May p56, May p74
Management philosophy, Jan p64, Nov p60
Manager characteristics, May p5
Marketing, May p65
Meek, Richard L.: Project selection in the petroleum industry, Sept p62
Mid-management, Nov p60
Multinational labs, Jan p12, Jan p20, Jan p47
National problems and efforts, Mar p12, July p4, Sept p6, Nov p4
National Science Foundation, Sept p7
Paden, J. H.: see Bobis, A. H.
Pader, Morton: The R&D mid-manager – administrator or researcher, Nov p60
Palmer, F. M.: Process research – who should do it? where should it be done?, July p67
Papo, Maurice: How to establish and operate multinational labs, Jan p12
Parmerter, S. M. and Garber, J. D.: Creative scientists rate creativity factors, Nov p65
Performance, profits from research, Mar p50, Nov p27
Personnel administration, Mar p59, Nov p19
Personnel compensation and rewards, Nov p19
Personnel motivation, May p12, May p24, May p43, May p51
Personnel recruiting, Nov p44
Philosophy of research and technology, Sept p10
Planning, July p58
Potter, B. V.: Effective information and technology transfer in multinational R&D, Jan p20
Professionalism, Mar p4

Project selection and planning, Sept p25, Sept p38, Sept p46, Sept p56, Sept p62, Sept p68
Research, Federal support and policy, Jan p4, Mar p5, Nov p4, Nov p5
Research, national effort and problems, Mar p12, July p4, Nov p9
Return from research, Mar p50, Nov p27
Ritte, Richard R.: Dual management – does it work? Nov p8
Rubenstein, Albert H., Barth, Richard T., and Douds, Charles F.: Ways to improve communcations between R&D groups, Nov p49
Rumker, Rosmarie Von: Multinational R&D in practice – Chemagro Corporation, Jan p50
Russian research, July p37
Singh, Paramjit: Management styles and philosophies abroad, Jan p64
Skolimowski, Henryk: Towards a humanistic technology, Sept p10
Societal problems and research, Jan p7, Mar p12, Mar p21, Mar p24, Mar p27, Sept p5, Sept p10
Systems analysis, Nov p71
Technology assessment, Mar p12, Mar p21, Mar p27
Technology transfer, Jan p20
Trade secrets, May p6
Tribus, Myron: National problems – a challenge to industrial R&D, Mar p24
Universities and R&D, Nov p12
Whaley, Wilson M.: A profits-oriented approach to project selection, Sept p25
Whitman, Eric S.: Project selection in the chemical industry, Sept p56
Woodward, F. N.: Organized cooperative research in Europe, Jan p55
